TO UNDERSTAND

TO ACCOMPANY

TO COORDINATE

TO ANTICIPATE

Before any intervention, we make a free visit to your home to assess your needs and guarantee you a tailor-made service. We set up the appropriate service and work out with you a personalized support project.

An estimate will be presented to you and all our services will be the subject of an official invoice.

At your request, we can also assist you in all your administrative procedures such as medical prescriptions, setting up the co-payment as well as, for members, coordination with the Caisse des Français de l'Etranger.
